

What about 2018?

1. Policy

- Produce a Capitol Hill Fly-In for Members, tentatively May 22-23, Washington, DC
- Take federal policy actions to produce a better climate for developing biogas projects with particular attention to the RFS, Tax, and Farm Bill
- Take action on state policy issues as needed and as requested by ABC members
- Activate the electric vehicle pathway in the RFS
- Actively fight for NGV parity with EVs in federal policy
- Take actions to encourage more states to adopt LCFS standards to expand the carbon markets
- Put new organics recycling policies in place, focusing on state policy, rather than local policy.
- Work with EPA to make improve registration and administration of RFS for D3 and D5 RIN generation

2. Membership

- Increase dues by 10% (3% inflation, 7% dues increase)

3. Operations and Maintenance Training

- Conduct in-person Digester Operator Training in WI and CA
- Obtain funding for and produce a Digester Operations Guide
- Create a certification for digester operators
 - Connection between financing and certified operators?

4. RNG

- Create a biogas RIN guide for dummies
- Promote residential RNG sales from gas utilities like VT gas

5. Digestate Certification Program

- Execute goals set by the Digestate Certification Working Group
- Work with OMRI to create a pathway for digestate to be OMRI listed

6. Other

- Create a "Star report" for biogas systems that collects BMP data confidentially and then shares aggregate data with members for a fee
 - Dean (Sophance) to co-chair
